

Support Your Digital Presence

Document your full scope of activities, including:

- Formal and informal student advising and mentorship
- School/college, University, professional, and public service
- Professional development, training, and licensure

- Central component to document performance for annual reviews and salary equity
- Component in documenting accomplishments and relating pay equity to performance
- Document all facets of performance related to research, teaching, and service

Capture a full range of scholarship from artistic, social science, humanist, and STEM activities plus integration of teaching and service activities. Export citations in multiple styles, including APA, Chicago, MLA, and 16 others.

Digitize current paper-based workflows including Senate Form A, Annual Review, and Promotion & Tenure

Format your CV for a variety of audiences: exhibition/performance bio, grants, proposals, news releases, author/NSF/NIH bio sketches as needed

Leverage existing University data systems to autopopulate information such as scheduled teaching, course feedback, sponsored research, and biographical information

Link or import from third party aggregators like Google Scholar, RefWorks, EndNote, ORCID, Web of Science, Scopus, CrossRef

Reduce the number of requests you receive for data by entering information once and use it for multiple purposes, including annual updates, reviews, web profiles and accreditation activities

One-on-one training sessions, workshops, guides, and videos are available to support you!
